

## Pre-Shaping Machine For SWG SS Stri

Code:KXT E1240

### Description

Pre-shape the flat spiral wound gasket SS strip (hoop) into V or W shape before winding.

Item no.:KXT E1240

### Pre-Shaping Machine For SWG SS Stri

Product number:KXT E1240

This machine is used to pre-shape the flat spiral wound gasket SS strip (hoop) into V or W shape before winding them. Preshape SS thickness 0.1-0.3mm, SS width 2.5-7.2mm.

### Specification

STYLE	KXT E1240 Pre-shaping machine for SWG SS strip
Preshaping SS thickness	0.1--0.3mm
Pre-shaping SS width	2.5--7.2mm (Standard machine package include on size of blade, other size for option:2.5V 3.2V 4.5V 6.4V 7.2V 2.5W 3.2W 4.5W 6.4W 7.2W)
Total power	1.5kw
Spindle motor power	0.75kw
Frequency Converter	2.2G
Power supply voltage	380V/220V as request,3phases
linear speed	0--12m/s
Machine measurement	1800*820*1600mm
Machine net weight	300kg
